PUC Docket No. 60319

PUBLIC COMMENT OF LOUIS ORENSTEIN

I live in Colorado, and I am writing about proposed Link 1R of El Paso Electric's Pine to McCloud 345 kV transmission line in El Paso County.

I oppose any route that uses Link 1R.

I have visited Hueco Tanks for many years and can't imagine the landscape and surrounding tranquility being marred by this proposal. One of the beautiful things about the area is the isolation and wide open views of the surrounding mountains and skies.
