PUC Docket No. 60319

PUBLIC COMMENT OF COREY SWANN

I live in Las Cruces, and I am writing about proposed Link 1R of El Paso Electric's Pine to McCloud 345 kV transmission line in El Paso County.

I oppose any route that uses Link 1R.

I have lived and climb at hueco tanks for nearly 20 years. I frequent the park multiple times a week throughout the year as a climber. I also know many of the people who live in hueco valley who DO NOT wish to have transmission wires strung across their beautiful homes and valleys, it would be an extreme eye sore. Not only to the homes but to the people who frequent the park to escape the urban areas of El Paso. Please for the love of god keep this sacred area free of the grasps of urbanization.
