PUC Docket No. 60319

PUBLIC COMMENT OF ANTHEA YUR

I am writing about proposed Link 1R of El Paso Electric's Pine to McCloud 345 kV transmission line in El Paso County.

I oppose any route that uses Link 1R.

I have been allured to Hueco Tanks and an almost land purchaser for a couple of years now. The property I would have purchased back in 2025 would have been obstructed by the building of Link 1R.

Like many residents that I know there, I wanted to raise my family with an open outdoor area, have an outdoor sauna with the architecture of each dwelling facing the Tanks.

To imagine this now with the Link 1R obstructing the view, dauntingly standing above my friends and children, and in the way of the mountains, is so reducing to the value of the land.

I hope this project may be considered elsewhere that isn't so close to the most loyal, giving, and committed neighbors that surround the Tanks now.
